The Library facility is fully automated and uses SOUL 3.0 software for its operations. All users and books are bar-coded for easy access. The library also has OPAC and Web-OPAC facility for quick search of books and other items. The library has also enabled access to N-List Consortia which is a consortium of libraries that provide e-resources to its users. The library has also installed D-Space software for data preservation and retrieval. It has launched institutional repository using D-space which provides quick information of e-content such as audio, video, ppt, and pdf. QR code facility is also available for quick response service to save time of users. The library also provides open access to various e-resources and newspaper clippings.
